

FoldUP

by expolinc

The Fold-Up display is a classic, consisting of an easily handled foldable screen that can be set up with a few simple movements. The standard size of the panels are 70 mm by 100 mm,

A classic

which makes the system both simple and economical.

The panels carrying your message lie safely mounted and ready during transportation. It is possible to put a message on either side of a panel. If

you wish to switch messages, just lift out a panel and insert a new one.

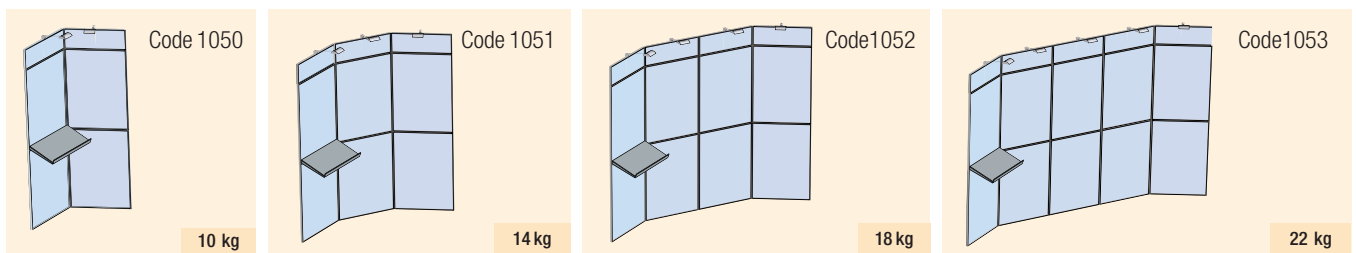

STANDARD PACKAGE, panel excl.

The Fold-Up standard package includes frame, headers, spotlights for each section, brochure holder and transport cases for frame and accessories.

Fold-Up is available in four standard sizes. Height 2285 mm (incl. headers). The frame is in silver as standard, but is also available in black.

PANEL SIZES

Each panel is 70x100 cm. The aluminum extrusion covers 5 mm on both sides.
